**Week 2 Task List Math 025**

**Note:** Normally, you will begin each section by taking notes on a lecture, completing a Preparation task on the left followed by the corresponding Practice task on the right. However, since week 2 (sections 1.6-1.8) is a review of the prerequisite material for Math 025, you may want to start with the practice exercises on the right. Then, if you are not getting correct answers, read the corresponding preparation example on the left. If a lecture on a particular section would be helpful, [Click Here](#) to view your options.

**Note:** Words in blue print are hyperlinks. Click to view.
